## **DETAILED ACTION**

### ***Drawings***

1. Figure 8 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Objections***

2. Claim 7 is objected to because of the following: on line 6, before "first", "a" should be changed to --the--; and on line 8, before "second", "a" should be changed to --the-- since it appears that "a first diaphragm" on line 6 is the same as the first diaphragm in claim 1, and "a second diaphragm" on line 8, is the same as the second diaphragm in claim 1. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

3. Claims 8-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite in that it fails to point out what is included or excluded by the claim language. This claim is an omnibus type claim.

It is not clear if claims 8-11 are claiming an apparatus of a loudspeaker or a method for manufacturing a loudspeaker.

***Allowable Subject Matter***

4. Claims 1-7 have been allowed.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Fukawatase et al. (U.S. patent 6,741,721) teaches an informing apparatus for mobile communication apparatus.
